Welcome to Cannafair! Welkom op Cannafair! Bienvenido a Cannafair! Benvenuti a Cannafair! Bienvenue á Cannafair!

Dear cannabis entrepreneurs,

in 2024, the time had finally come: possession of cannabis and even cultivation of cannabis are no longer punishable offenses in Germany (within certain limits). In addition, the operation of cannabis social clubs is now also permitted in Germany.

Many clubs have already received their licenses and are actively recruiting members. In addition, hundreds of thousands of home growers have been able to gain their first legal experience. As the past two years have shown,

interest is huge. For all cannabis enthusiasts in Germany, the time has finally come to find out about the latest trends, optimize their own set-up, or simply stock up on everything they need for consumption.

The perfect starting point for hosting Cannafair – and the perfect starting point for presenting your own brand to an interested, committed and affluent audience at Cannafair. Because those cannabis enthusiasts who are most passionate about the topic are guaranteed to be back at the sixth Cannafair, Cannafair 2026, which will take place again at the Areal Böhler (see page 5) in Düsseldorf/Meerbusch from 21 to 23 August. The visitor record of over 20,000 participants at Cannafair 2025 is sure to be broken again in 2026.

We are therefore delighted to take Cannafair 2026 to a new level in our new home at Areal Böhler and to continue growing together with you.

With this in mind: see you in Düsseldorf!

Info stand

Düsseldorf

ot only is Düsseldorf the ideal location for a cannabis fair, but the easily accessible venue itself is also perfect for hosting Cannafair. In order to meet the high demand, Cannafair 2025 moved within Düsseldorf and opened its doors for the first time at the Areal Böhler in Meerbusch, on the outskirts of Düsseldorf. This cooperation combines Cannafair's innovative trade fair concept with the unique industrial architecture and modern infrastructure of the traditional event venue. With its spacious halls and flexible outdoor areas, the Areal Böhler offers ideal conditions for the dynamically growing cannabis scene. This collaboration creates an environment that combines professionalism, sustainability and scene culture.

21.-23. August 2026

xperience has shown that a date in August is the optimal date for hosting a cannabis trade fair in Europe in general and in Germany in particular. Past Cannafair editions have shown that August is very popular with exhibitors and visitors alike. Also, neither other cannabis fairs nor large industrial fairs are taking place in this period, so hotels can be booked at affordable rates in perfect locations during this period. Another advantage of the date: not only for us, but also for a good proportion of visitors, a relaxed, cozy outdoor area and warm temperatures are simply part of a cannabis fair.

Our venue: Areal Böhler

he industrial charm of the historic forge hall and its adjoining halls meets future-oriented topics such as cannabis cultivation, medicine, sustainability, and lifestyle. This synergy is an important milestone in the further development of Cannafair—towards an even larger, more international, and more diverse platform for the emerging cannabis industry. Visitors and exhibitors alike were absolutely thrilled with the new location. The Düsseldorf-Lörick tram and bus stop is located directly in front of the entrance gate to the site, ensuring optimal connectivity.
